---

Hi Peter, I should have sent this to you too when I sent to Jack and Roy. Here is the meeting announcement.

Thanks, Scott Jackson

Dear Colleague,

Are you interested in learning more about newly emerging genomic technologies and their applications to crop improvement? We would like to personally invite you and your colleagues to explore genomics enabled crop breeding and improvement at [CROPS 2015](#).

[CROPS 2015](#), an international conference co-hosted by HudsonAlpha Institute for Biotechnology and The University of Georgia, is taking place May 18 – 21, 2015, in Huntsville, Alabama. This multi-day program, will bring together leading researchers and traditional breeders to address the intersection of progressing genomic technologies and their application to crop improvement.

The conference will be an invaluable experience for you and your colleagues to hear presentations from experts in the field and the opportunity to network with them at several social events. [Click here](#) to see the line-up of speakers who will be discussing their groundbreaking research.

Discounts are offered for early registrations to attend CROPS 2015 through March 20, 2015. Prices will still be partially reduced through April 17, 2015. [Click here](#) to register for CROPS2015 at the discounted rate.

Please forward this invitation to others that may want to take advantage of this unique opportunity!

I look forward to seeing you at CROPS 2015 in May.

Warm regards,

Scott Jackson and Peggy Ozias-Akins, University of Georgia  
Jeremy Schmutz, HudsonAlpha Institute
