Subject: ERA CAP project
Date: Monday, April 13, 2015 10:36:29 AM

Hi Peter and Roberto, with this email I am putting you two in contact.

Peter, Roberto is the PI of a recently funded ERA CAP project which will include genotyping of ~10,000 genebank accessions of *Phaseolus vulgaris* as well as phenotyping. I thought this would be a good partner for Divseek and am putting you two in touch. We are planning a kick off meeting in the next several months and are considering Cologne as it would make sense with a Divseek partnership.

See you on Thursday!

scott
