Subject: Re: Follow up to Seattle soybean meeting
Date: Sunday, January 10, 2016 2:22:50 PM

A reminder of the meeting on Monday. We do not have a projector, so please do updates without slides. I think some plan to bring handouts.

See you all there.

Thanks, Scott

Folks, an update for our meeting in San Diego. I just got the room assignment below.

Genomic of Soybean Germplasm Collections on Monday January 11, 2016 from 10am-12:30pm in the Brittany Room. This meeting room is located in the Regency Conference Center close to Charlie's Restaurant.

I propose to follow a similar format to the last meeting with country updates and then a discussion of the bullets from the meeting in Seattle last year (attached).

Seems there is interest to do this again.

Please let me know if Monday from 10-12 does not work for you.
There are no scheduled Workshops at that time.

Folks, Sorry for the late date. But would there be interest in having a follow up meeting to the SEattle meeting at PAG (San Diego) this year? If so, please let me know this week and I will find a time and room to do this. I think that Steve Cannon was able to get some funding to get the global inventory started. There may be other updates or items to discuss as well.

Thanks Scott

Folks, the meeting is this week. Meeting agenda is below. Please let me know if you have any questions. For dinners, if you plan to arrive early enough for dinner on Wed (15th), let me know and I can make a reservation and we can go together. I will make a group reservation for the 16th.

Meeting Agenda (Start at 9:00 AM in the Kodiak room at the Seattle Courtyard Marriott, 612 2nd Avenue)

Purpose: to explore the possible application of

genomics and phenomics to
the international soybean
genetic resources.

Agenda

* Introductions

* Peter Wenzl: introduction to
DivSeek initiative

(www.divseek.org)

* Short 8 minute reports by
country/collection on a)
collection, b) application of
genomics/high density
markers for characterization,
c) phenotyping and d)
utilization.

Brazil—Fernandes/Abdelnoor

China—Qiu

Japan—Ismimot0/Kaga

Korea—Lee

United States—Nelson

CGIAR—Abberton (will
provide a PDF/PPT)

* Randy Nelson: 50K SNPs
on US collection (15 min)

* Lijuan Qiu: sequence
analysis of soybean and G.
soja (15 Min)

* Robert Stupar: non-SNP
variation (15 min)

Discussion 1: How to
collectively characterize
collections

Discussion 2: Data sharing

Discussion 3: Germplasm
issues: redundancy, sharing,
etc.

If there are any emergencies,
my cell is 765.409.4973

THanks, Scott

Hi everyone,

Details below on the meeting on the application of genomics for soybean genomic resources.

1) **Hotel:** I have a room block reserved at 15-17 April at the Seattle Downtown Courtyard Marriott (612 2nd Avenue Seattle WA 98104). **You need to immediately register your room** under your name and credit card. You can do so by using the following link: [Book your group rate for Germplasm and Genomics Meeting Room Block](#). The full

link is at bottom
of email in case
the embedded
link does not
work.

There is a light
rail

(<http://www.soundtransit.org/Fares>

[-and-](#)

[Passes/Link-](#)

[fares](#)) that will

take you from the

airport to 0.1

miles from the

hotel (get off at

Pioneer Square).

The cost is \$2.75

USD.

2) **Proposed meeting agenda**

(this is a

beginning

outline. If you

have additional

ideas/thoughts,

please let me

know).

Purpose: to

explore the

possible

application of

genomics and

phenomics to the

international

soybean genetic

resources.

Agenda

* Introductions

* Peter Wenzl:

introduction to

DivSeek

initiative

(www.divseek.org

[g](#))

* Short 8 minute

reports by

country/collection

on a)

collection, b)
application of
genomics/high
density markers
for
characterization,
c) phenotyping
and d) utilization.

Brazil

China

Japan

Korea

United States

CGIAR

* Randy Nelson:
50K SNPs on US
collection (15
min)

* Lijuan Qiu:
sequence analysis
of soybean and
G. soja (15 Min)

* Robert Stupar:
non-SNP
variation (15
min)

Discussion 1:
How to
collectively
characterize
collections

Discussion 2:
Data sharing

Discussion 3:
Germplasm

issues:
redundancy,
sharing, etc.

Thanks and let
me know if you
have any
questions,

Scott Jackson
