Yong is doing well. Unfortunately, I 've been traveling too much but he is working on the methylomes of the wild and domesticated soybean.

Ok, I will if there is a possibility for sending.

How is Yong Guo going?

OK. If you want to send someone to the meeting, that would be fine.

Otherwise, I can send a summary afterwards.

Hello scott,

I was just back from Amsterdam. I had no plan for attending the PAG.

Seems there is interest to do this again.

Please let me know if Monday from 10-12 does not work for you. There are no scheduled Workshops at that time.

Folks, Sorry for the late date. But would there be interest in having a follow up meeting to the SEattle meeting at PAG (San Diego) this year? If so, please let me know this week and I will find a time and room to do this. I think that Steve Cannon was able to get some funding to get the global inventory started. There may be other updates or items to discuss as well.

Thanks Scott

Folks, the meeting is this week.
Meeting agenda is below. Please let
me know if you have any questions.

For dinners, if you plan to
arrive early enough for dinner on
Wed (15th), let me know and I can
make a reservation and we can go
together. I will make a group
reservation for the 16th.

Meeting Agenda (Start at 9:00 AM in
the Kodiak room at the Seattle
Courtyard Marriott, 612 2nd Avenue)

Purpose: to explore the possible
application of genomics and
phenomics to the international
soybean genetic resources.

Agenda

- * Introductions
- * Peter Wenzl: introduction to
DivSeek initiative
(www.divseek.org)
- * Short 8 minute reports by
country/collection on a)
collection, b) application of
genomics/high density markers for
characterization, c) phenotyping
and d) utilization.
Brazil—Fernandes/Abdelnoor
China—Qiu
Japan—Ismimoto/Kaga
Korea—Lee
United States—Nelson
CGIAR—Abberton (will provide a
PDF/PPT)
- * Randy Nelson: 50K SNPs on US
collection (15 min)
- * Lijuan Qiu: sequence analysis of
soybean and G. soja (15 Min)
- * Robert Stupar: non-SNP variation
(15 min)

Discussion 1: How to collectively
characterize collections

Discussion 2: Data sharing

Discussion 3: Germplasm issues:
redundancy, sharing, etc.

If there are any emergencies, my
cell is 765.409.4973

THanks, Scott

Hi everyone,

Details below on the meeting
on the application of
genomics for soybean genomic
resources.

1) Hotel: I have a room
block reserved at 15-17
April at the Seattle
Downtown Courtyard Marriott
(612 2nd Avenue Seattle WA
98104). You need to
immediately register your

room under your name and credit card. You can do so by using the following link:

[Book your group rate for Germplasm and Genomics Meeting Room Block](#). The full

link is at bottom of email in case the embedded link does not work.

There is a light rail (<http://www.soundtransit.org/Fares-and-Passes/Link-fares>)

that will take you from the airport to 0.1 miles from the hotel (get off at Pioneer Square). The cost is \$2.75 USD.

2) Proposed meeting agenda (this is a beginning outline. If you have additional ideas/thoughts, please let me know).

Purpose: to explore the possible application of genomics and phenomics to the international soybean genetic resources.

Agenda

- * Introductions
- * Peter Wenzl: introduction to DivSeek initiative (www.divseek.org)
- * Short 8 minute reports by country/collection on a) collection, b) application of genomics/high density markers for characterization, c) phenotyping and d) utilization.

Brazil

China

Japan

Korea

United States

CGIAR

* Randy Nelson: 50K SNPs on
US collection (15 min)

* Lijuan Qiu: sequence
analysis of soybean and G.
soja (15 Min)

* Robert Stupar: non-SNP
variation (15 min)

Discussion 1: How to
collectively characterize
collections

Discussion 2: Data sharing

Discussion 3: Germplasm
issues: redundancy, sharing,
etc.

Thanks and let me know if
you have any questions,

Scott Jackson
