No fee. I should have seen that and could have registered. Sorry:) My eyes are blurry...not sure if tired or too much writing today.

Scott,

I registered you and it said that registration was successful, but it never asked for payment. Maybe you will get an email with payment option? If so, you can forward to me. I will finish it.

Jenny, can you register me, please?

Tammy, I will need a TA for this.

Thankss,

scott

Dear Dr. Jackson, dear Scott

I thank you for accepting the invitation to give a keynote lecture on our meeting in Kiel. Rajeev, thanks for arranging the contact with Scott! Let me briefly introduce myself. I am the president of the German

breeders association GPZ and am organizing our biennial international congress this year in Kiel which is in the very north of Germany. The preliminary program is in the attachment and all instructions for registration can be found here:

<http://www.plantbreeding.uni-kiel.de/de/gpz-haupttagung-2014>

I will shift your talk from session 1 to session 3 which starts Wednesday, September 24, 2014. Will this be ok for you?

Or do you think your talk could also fit to session 2 (where there is only one keynote speaker)?

If you agree, please send me the title of your talk which should be about legume breeding and genomics and the use of genetic resources and please send me an abstract which should not exceed one page. Please register via our web registration service. You will not have to pay the congress fee.

Please contact Siegbert Melzer from my institute (s.melzer@plantbreeding.uni-kiel.de) from my institute who will book a hotel room for you and assist you in making any travelling arrangements within Germany.

If you have any questions please do not hesitate to contact me or Siegbert.

Kind regards

Christian

I think I can do this but I wouldn't be able to arrive until the morning of the 23rd as I'm hosting a seminar speaker at UGA on the 22nd.

Dear Scott

Hope that you are doing good. I am writing this mail on behalf of Prof Christian Jung of University of Kiel, Germany. He is organizing a meeting entitled “Genetic variation in plant breeding”.

Details about this meeting are available at <http://www.plantbreeding.uni-kiel.de/de/gpz2014> . For this meeting, we would like to invite you to speak on a topic related to legume genomics, genetics and breeding. Hope that you should be able to accept this invitation.

In fact, I was also planning to participate in this meeting. However as I will be in Governing Board meeting of ICRISAT at the same time, I will not be able to participate in this exciting meeting. However I am very sure that you will enjoy meeting very much and of course Kiel.

We would appreciate to receive your response on above soon so that Christian can finalize the programme.

Many thanks and kind regards

Rajeev
