Hi ruth, I know Carolyn and she may be a good person to lead the RCN. how much did you talk to her about it? Should we start a discussion with her? I don't officially start for another week or so, so I can have a conversation until then. After that it becomes a bit more difficult due to COI...

Hi Scott

I am really sorry to hear you have a conflict of interest for this. I briefly spoke to Susan about the RCN but she said she was already over stretched so that is a no go.

Someone who has shown a lot of interest in DivSeek but who I don't know personally is Carolyn J. Lawrence-Dill do you know her?

Apart from that I am not sure who would be a good lead for the RCN. I guess we need to get our thinking caps on!

Have fun in Bonn

Ruth

Hi Ruth. I feel bad that I kept dropping this. And to compound the problem, I will be at NSF again (part time and from home) as one of the program officers was ill and they fell behind. So, I was asked to step in and help catch up. Now I'm a conflict again.

That said, we should identify someone that is part of the larger initiative to be the PI on this. I can help, as can you. I think Susan is too busy and didn't seem interested. Do you have any ideas?

Hi Scott

Good to see you in Minneapolis

I really would like to follow up with you on the idea of submitting an RCN for DivSeek. I know that you will be busy with the bean meeting next week, but hopefully we can catch up soon and discuss further.

Regards

Ruth
