also as an FYI, Trulie Thorley will not be attending as her position (and others) was cut at DowAGRO.

As FYI - This email was sent to the 40 people that registered for CROPS with the student rate. This session should be a nice addition to the conference.

Dear CROPS attendee,

We look forward to seeing you at CROPS and would like to make this experience very productive for you. You are invited to attend a special panel session at CROPS on Tuesday, May 19th, from 12:30 - 1:30 p.m. This session provides you the opportunity to hear from experts on their career choices and ask questions about career paths that you may be interested in exploring. This complimentary program has limited seating for up to 40 people. If you would like to attend this session on Tuesday, please stop by the CROPS information desk at the Jackson Center to register. The abstract of this session is below.

Exploring Plant Genomics Careers through Experience

Moderated by Dr. Adam Hott, HudsonAlpha Education

One of the best ways to explore career possibilities is to hear from those that have walked the path before you. This panel session will feature experts sharing their personal career journeys. This session has been designed specifically for current students and post-docs as they begin building their own career pathways. Panelists will share their experiences from graduate school to employment and share personal best decisions and missteps along the way. There will be time for answering questions from the attendees.

Panelists:

- Gerald Tuskan - Oak Ridge National Laboratory, BESC
- Jennifer Jones - United Soybean Board
- Peggy Ozias-Akins - University of Georgia
- Jeremy Schmutz - HudsonAlpha Institute for Biotechnology, JGI
- Esther Vanderknaap - Ohio State University
- Rajeev Varshney - ICRISAT-IN, CGIAR
- C.J. Tsai - University of Georgia
- Trulie Campbell - Dow AgroSciences

Kind regards,

Deborah
