Thanks, Scott. Yes- I do agree with you.. but I don't know what we can do as majority of piegonpea researchers are in India (and that too in ICRISAT?)...

Many thanks and kind regards

Rajeev

Hi Rajeev, the topics look fine. Some of the authors I do not know. My only comment is that it seems very ICRISAT centric. I know that INDia consumes most of the pigeonpea:) But is there nothing going on research-wise in Africa, Australia,? I think these outlines get reviewed and that may be on criticism.

Dear Scott

Greetings from Hyd!

As we discussed earlier about one book on piegonea, Here I send you the tentative outline of chickpea book in that series. Hope that this is fine. Please edit it and respond back to me in 2-3 days.

Many thanks and kind regards

Rajeev
