Subject: Re: visit of your postdoc to ICRISAT
Date: Monday, June 23, 2014 7:56:43 AM

Thanks, Rajeev. I am copying her on this email so we can start working on this. Let's talk in Saskatoon about a work plan.

BTW I have to leave the ICLGG early to go to a peanut meeting. Will leave Wed. I think I miss your session.

Dear Scott

thanks for this. It is great! Please let me know when she wants to visit ICRISAT. In case you can arrange her travel, I can take care of her living expenses (accommodation, food) at ICRISAT and of course lab operations. lets define some workplan for her and date.. and we can arrange an invitation letter for her so that she can apply for visa.

Many thanks and kind regards

Rajeev

Rajeev, maybe we can talk in Canada. I have a postdoc that may be interested in spending a few weeks/months at ICRISAT. she's working on marker development in peanut and it would be a good way to keep our collaboration moving forward. Thoughts?

Thanks, Scott. So nice of you.

Christian can suggest further and I very much hope that he can keep your presentation after 23rd!

Many thanks and kind regards

Rajeev

I think I can do this but I wouldn't be able to arrive until the morning of the 23rd as I'm hosting a seminar speaker at UGA on the 22nd.

Dear Scott

Hope that you are doing good. I am writing this mail on behalf of Prof Christian Jung of University of Kiel, Germany. He is organizing a meeting entitled "Genetic variation in plant breeding". Details about this meeting are available at <http://www.plantbreeding.uni-kiel.de/de/gpz2014> . For this meeting, we would like to invite you to speak on a topic related to legume genomics, genetics and breeding. Hope that you should be able to accept this invitation.

In fact, I was also planning to participate in this meeting. However as I will be in Governing Board meeting of ICRISAT at the same time, I will not be able to participate in this exciting meeting. However I am very sure that you will enjoy meeting very much and of course Kiel.

We would appreciate to receive your response on above soon so

that Christian can finalize the programme.

Many thanks and kind regards

Rajeev
