I'll be at the DivSeek meeting. Shall we have dinner afterwards?

Great! I really look forward to visiting you in Athens. I get to San Diego on the evening of the 8th. I am going to a DivSeek meeting on Friday, and at PAG through Tuesday evening. Then it's directly on to Haiti to meet Dave and Jamie.

I look forward to catching up on San Diego

I've got 22-23 June blocked off. Hope you can make it! Yes, I'll be in San Diego. When do you arrive?

Hi Scott

I'll be in Haiti for the conference 15-19 June, so the most likely dates would be around 22-23 June for a visit to UGa. I am also hosting a meeting of a rice blast project I am involved in (<http://www.exeter.ac.uk/nicktalbot/projects/scprid/>), sometime in June in Nairobi. But for now let's block

off those days; I will do my best to keep the rice meeting away from those dates. I've blocked them off.

Sorry not to have a chance to come through this trip. I imagine you will be at PAG, though, right? If so, it will be great to catch up there.

All the best

Jagger

Hi Jagger, June would likely work but can you send me the dates so I can block it off on my calendar. I will be in Alaska the first 12 days of June--taking our twins there.

Hi Scott

My travel plans are coming together, and it is hard to pass up the opportunity to meet with Dave and Jamie on the ground in Haiti. If I do that, I would plan on coming to Athens in June, when travelling to the meeting in Haiti. Would that work?

Thanks

Jagger

Hi Jagger, I'm in China now but yes, it would be great to have you visit the 20th. If you want to spend any

more time, I'm pretty open that entire week.

Would you be interested to give a seminar while you are visiting?

Dear Scott

It has been too long since we last had an opportunity to catch up. I am sure your year has passed at least as quickly as mine. I had the opportunity to meet Jamie at the Partnership for Aflatoxin Control in Africa meeting in Addis a few months ago. As I mentioned in my message to him, it would be great to stop by UGa while I am in the neighborhood. Would it be possible for you to meet on January 20? I am interested in following up on potential linkages with UGa and PMIL, and on the peanut mycotoxin project ideas we discussed.

All the best

Dear Jamie

I hope you have been well since we met in Addis. Learning about your work and Haiti, and the prospect for my engagement through the June meeting in **Cap-Haïtien** is an opportunity I have long awaited. I am eager to learn more about your plans for the meeting, and how I might be able to contribute to the organisation, fund raising or networking as necessary. In addition, I have been meaning to visit UGa since I met Scott Jackson at our Agricultural Research Connections conference in Kenya this past June.

I will be attending PAG this January, then visiting Miami for my father's 70th birthday celebration. Would a visit on January 20th be possible? I do not want to miss the opportunity to come and discuss with you further if I am already so close.

All the best

Jagger
