Subject: cost for international participants
Date: Wednesday, November 19, 2014 12:58:16 PM

Deborah et al.,

We have overlooked the cost for the international participants. I think they should be at the student price too, so it is not prohibitive for the. Hoepfully, we can offset these numbers with fund raising. I think for folks for developing countries that the full price will be too expensive. Thoughts?

Copying our international organizers here too.

scott
