**Date:** Tuesday, July 08, 2014 1:28:10 PM

---

Stephanie,

Not sure what time frame you will visit, but you should go ahead and get your visa as it takes some time. You can ask for a 1 yr visa so you can go anytime. Please send a copy of your passport to Rajeev and he will send an invite letter that you can use to get a visa.

per the visit, Rajeev is working with Illumina on a SNP chip and we could probably bring some our genotypes and then you could work on the data. Also, there is work on exome capture that you could participate in.

scott
