Thanks Rich.

Dear Scott and Rajeev,

It was good to see Scott at PAG and to hear that both of you ready to get started on a volume on the Genetics and Genomics of the Legumes. When you're able, send me a draft table of contents with prospective authors that I can approve. No need to contact authors first - we just need to see your initial plans, and we understand that it will evolve as you contact authors.

If you have questions, don't hesitate to ask!

Cheers,
Rich
