I can't find it.

Rajeev, do you have a copy she could read?

Hi Scott -- Would you be able to send me a description of the peanut foundation proposal that describes this project? Thanks!

Rajeev, Two thoughts: 1) work on the Peanut foundation project with the data from UC Davis/BGI or 2) develop a project that we can spin into something more long term. (or both).

Hi Rajeev,

I thought I'd touch base so that we could start discussing potential projects that I can work on during my visit in December. To give you some background, I'm trained in plant evolutionary genomics and have experience in SNP identification, marker development, trait mapping, genetic mapping, and comparative genomics. Currently, I am also doing some FISH in peanut. Moving forward, I'm interested in characterizing genetic diversity and investigating locally adapted peanut varieties. I've also had an interest in physiology (e.g., drought response) and am also curious to learn more about your group's work in that area.

What are some of your thoughts on a potential project? I know that we've got some time until my visit, but perhaps in the meantime I can start preparing and/or conducting preliminary analyses.

Thank you again for this opportunity to work with your group,
Stephanie

Excellent, thank you. How about we arrange for me to start working at ICRISAT on December 3 or 4, with my last day in the lab there being either December 18 or 19?

Would a 2 1/2 to 3 week visit be alright? The best dates for my schedule would be the first 3 weeks of December or first 3 weeks of October, but I'm not sure if those dates would be too late or too soon -- what do you think? Alternatively, I might be able to do middle to late October, or early to mid November (though the latter would mean that I would have to miss the peanut meeting in Savannah). What would be best?

Thank you for your help with this, and I look forward to working with you!

Stephanie

Thanks, Stephanie.

I don't think that Indian Consulate/ Embassy can consider visa application 6- months in advance. Probably we can have dates of invitation should be in next 2-3 months in the letter. What do you suggest?

Many thanks and kind regards

Rajeev

Hi Anu,

I'm not certain of the duration of my trip as some of these details have not been worked out yet, but perhaps we could say two months in the next year (to give it some flexibility)?

Thank you!

Stephanie

Dear Stephanie

Greetings from ICRISAT!

Please let us know the dates(how many months) of your visit to ICRISAT, according to that we would be arranging invitation letter.

Thanks and regards,

Anu

Pearl

Thanks, Scott for bringing up this.
I am sorry that I couldn't follow
up as I have been on travel for last
few weeks.

Manjula and Anu- please expedite
this and let me know if there is
any question, please!

Many thanks and kind regards

Rajeev

Rajeev, just following
up on this discussion
to see where we are
and how we can
move this along.
Stephanie is eager to
visit and establish
some collaborative
research. Let me
know what we can do
to make this happen.

thanks, scott
