TO: All TB/Brucellosis Project Personnel

FROM: Dr. Thomas Ficht

SUBJECT: Routine TB/Brucellosis Testing

The quarterly blood samples will be collected from personnel who are at risk for TB/Brucellosis on Tuesday, May 15, and readings on Thursday, May 17, 2007. Please report to Room 108 VMR, for sampling between 10 a.m. and 12 p.m. If for some reason you are not able to make this time you will

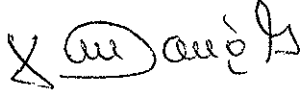

be required to go to the Scott & White clinic to be tested. If there were any personnel left off this memo, please distribute a copy to them.

Whether or not you plan to be tested, please return this form by Wednesday, May 2, signed and checked in the appropriate space, to Mary Ronsonet, Room 110 VMR building. Thanks.

Yes, I will be present for test

No I will not be present for test

The quarterly blood samples will be collected from personnel who are at risk for TB/Brucellosis on Tuesday, May 15, and readings on Thursday, May 17, 2007. Please report to Room 108 VMR, for sampling between 10 a.m. and 12 p.m. If for some reason you are not able to make this time you will be required to go to the Scott & White clinic to be tested. If there were any personnel left off this memo, please distribute a copy to them.

Whether or not you plan to be tested, please return this form by Wednesday, May 2, signed and checked in the appropriate space, to Mary Ronsonet, Room 110 VMR building.
Thanks.

Yes, I will be present for test

No I will not be present for test

FROM: Dr. Thomas Ficht

SUBJECT: Routine TB/Brucellosis Testing

The quarterly blood samples will be collected from personnel who are at risk for TB/Brucellosis on Tuesday, November 28, and readings on Thursday, November 30, 2006. Please report to Room 108 VMR, for sampling between 10 a.m. and 12 p.m. If for some reason you are not able to make this time you will be required to go to the Scott & White clinic to be tested. If there were any personnel left off this memo, please distribute a copy to them.

Whether or not you plan to be tested, please return this form by Wednesday, November 22, signed and checked in the appropriate space, to Mary Ronsonet, Room 110 VMR building. Thanks.

Yes, I will be present for test

No I will not be present for test

SUBJECT: Routine TB/Brucellosis Testing

The quarterly blood samples will be collected from personnel who are at risk for TB/Brucellosis on Tuesday, May 16, and readings on Thursday, May 18, 2006. Please report to Room 108 VMR, for sampling between 10:00 a.m. and 12 p.m. If for some reason you are not able to make this time you will be required to go to the Scott & White clinic to be tested. If there were any personnel left off this memo, please distribute a copy to them.

Whether or not you plan to be tested, please return this form by Wednesday, May 10, signed and checked in the appropriate space, to Mary Ronsonet, Room 110 VMR building. Thanks.

_____ Yes, I will be present for test

_____ No I will not be present for test

Subject: Test Results

Good afternoon Mr. Crouch,

Per our conversation-
Please send a copy of the blood test results taken October 4, 2005
for the following persons to the address below:

Thomas Ficht ✓
Jianwu Pei ✓
Melissa Kahl ✓
Qingmin Wu ✓
Carol Turse ✓
Joshua Turse ✓
Jenni Weeks ✓
Navina Bhatkar ✓
Alfredo Wong-Gonzalez ✓
Shu Han ✓
Allison Ficht ✓
Angela Arenas ✓
Kristen Nielson ✓
Hong Liu 12/12/05

Thank you,
MPR

Mary Ronsonet

NEXT APPT: FASTING STATUS:

Diagnostic Procedure	Result	Units	Reference Range	Site Code
BRUCELLA ABORT AB PAN				
BRUCELLA ABORTUS,IGG	<1:160			35
BRUCELLA ABORTUS IGM	<1:160			35
BRUCELLA AB INTERP				35
Antibody Not Detected.				
Comments:				
REFERENCE RANGES: IgG <1:160				
IgM <1:160				
IgM antibodies recognizing Brucella usually appear during the second week after infection, with IgG antibodies subsequently appearing 1 to 2 weeks later. Thus, detection of IgM Ab alone, suggests very early disease.				
Successful treatment of brucellosis is indicated by decreasing IgG titers, whereas chronic or partial treatment is indicated by stable elevated IgG titers. Brucella abortus antibody crossreacts with B.suis and B.melitensis.

FROM: Dr. Thomas Ficht

SUBJECT: Routine TB/Brucellosis Testing

The quarterly blood samples will be collected from personnel who are at risk for TB/Brucellosis on Tuesday, September 6th. Please report to Room 108 VMR, for sampling between 10:00 a.m. and 12:00 p.m. If for some reason you are not able to make this time you will be required to go to the Scott & White clinic to be tested. If there were any personnel left off this memo, please distribute a copy to them.

Whether or not you plan to be tested, please return this form by Wednesday, August 31st, signed and checked in the appropriate space, to Mary Ronsonet, Room 110 VMR building. Thanks.

Yes, I will be present for test

No I will not be present for test

FROM: Dr. Thomas Ficht

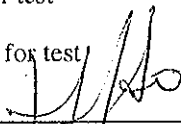

SUBJECT: Routine TB/Brucellosis Testing

The quarterly blood samples will be collected from personnel who are at risk for TB/Brucellosis on Tuesday, September 6th. Please report to Room 108 VMR, for sampling between 10:00 a.m. and 12:00 p.m. If for some reason you are not able to make this time you will be required to go to the Scott & White clinic to be tested. If there were any personnel left off this memo, please distribute a copy to them.

Whether or not you plan to be tested, please return this form by Wednesday, August 31st, signed and checked in the appropriate space, to Mary Ronsonet, Room 110 VMR building. Thanks.

Yes, I will be present for test

No I will not be present for test

FROM: Dr. Thomas Ficht

SUBJECT: Routine TB/Brucellosis Testing

The quarterly blood samples will be collected from personnel who are at risk for TB/Brucellosis on Friday, February 25th. Please report to Room 108 VMR, for sampling between 10:00 a.m. and 12:00 p.m. If for some reason you are not able to make this time you will be required to go to the Scott & White clinic to be tested. If there were any personnel left off this memo, please distribute a copy to them.

Whether or not you plan to be tested, please return this form by Monday, February 21st, signed and checked in the appropriate space, to Mary Ronsonet, Room 110 VMR building. Thanks.

Yes, I will be present for test

No I will not be present for test

SUBJECT: Routine TB/Brucellosis Testing

The quarterly blood samples will be collected from personnel who are at risk for TB/Brucellosis on Tuesday, May 18th and Thursday, May 20th, 2004. Please report to Room 108 VMR, for sampling between 9:00 a.m. and 10:00 a.m. If for some reason you are not able to make this time you will be required to go to the Scott & White clinic to be tested. If there were any personnel left off this memo, please distribute a copy to them.

Whether or not you plan to be tested, please return this form by Friday, May 14, signed and checked in the appropriate space, to Mary Ronsonet, Room 110 VMR building. Thanks.

Yes, I will be present for test

No I will not be present for test

Consent Form For Tuberculosis Screening

Tuberculosis is a contagious disease of the lungs. It is on the rise in the US and other countries. The lungs form small nodules produced by an organism during the disease process. You will be receiving a sterile aqueous solution of a purified protein derivative as an aid in diagnosing TB also known as the silent killer. A tiny amount of the PPD solution will be placed under the skin on your forearm. You will see a small bleb appear. It will reabsorb soon. If a bleb does not form, the test will need to be repeated at a different site.

PLEASE REPORT TO THE NURSE WITHIN 48 TO 72 HOURS TO HAVE THE SCREENING READ. IF YOU FAIL TO REPORT FOR THIS READING, THE SCREENING WILL NEED TO BE REPEATED.

If the screening is negative, nothing further will happen. If the screening is positive, the nurse will advise you what further steps need to be taken.

If you develop a local reaction at the site: Use a cold compress for 20 minutes at a time to the area and apply Benadryl cream, Caladryl lotion or Calamine lotion for relief of the itching and discomfort. DO NOT cover area with a BAND-Aid or dressing.

Screening is voluntary. Please answer the following questions:

- YES NO Have you ever had a positive TB test in the past?
- YES NO Are you allergic to any of the components of the vaccine?
- YES NO Have you had any live immunizations in the past 30 days? (e.g. Measles, Mumps, Rubella, Varicella)
- YES NO Have you had any steroid therapy (Prednisone) orally in the past 60 days?
- YES NO Have you ever had BCG vaccine?
- YES NO Have you been exposed to someone with active TB?

Are you experiencing any of the following symptoms?

- YES NO Night sweats? YES NO Loss of appetite?
- YES NO Productive cough? YES NO Fatigue/weakness
- YES NO Unexplained weight loss? YES NO Frequent chills?
- YES NO Shortness of breath or chest pain?
- YES NO Fever greater than 100 degrees F.

I have read the above information and had the opportunity to ask questions. I understand the benefits/risks of this screening. I understand that I must return within 48 to 72 hours to have this screening re

FROM: Dr. Thomas Ficht 

SUBJECT: Routine TB/Brucellosis Testing

The quarterly blood samples will be collected from personnel who are at risk for TB/Brucellosis on Wednesday, October 16, and Friday, October 18, 2002. Please report to Room 108 VMR, for sampling between 9:00 a.m. and 11 a.m. If for some reason you are not able to make this time you will be required to go to the Scott & White clinic to be tested. If there were any personnel left off this memo, please distribute a copy to them.

Whether or not you plan to be tested, please return this form by Friday, October 4, signed and checked in the appropriate space, to Cindy Jarrott, Room 110 VMR building. Thanks.

Yes, I will be present for test

No I will not be present for test

SUBJECT: Routine TB/Brucellosis Testing

The quarterly blood samples will be collected from personnel who are at risk for TB/Brucellosis on Wednesday, October 16, and Friday, October 18, 2002. Please report to Room 108 VMR, for sampling between 9:00 a.m. and 11 a.m. If for some reason you are not able to make this time you will be required to go to the Scott & White clinic to be tested. If there were any personnel left off this memo, please distribute a copy to them.

Whether or not you plan to be tested, please return this form by Friday, October 4, signed and checked in the appropriate space, to Cindy Jarrott, Room 110 VMR building. Thanks.

Yes, I will be present for test

No I will not be present for test

John Park

John Park

However, I'm current w/my TB/Brucellosis testing. I participate w/the LARR/Stw Occ. Health program.

CONSENT FORM FOR TUBERCULOSIS SCREENING

Tuberculosis is a contagious disease of the lungs. It is on the rise in the U.S. and other countries. The lungs form small nodules produced by an organism during the disease process.

You will be receiving a sterile aqueous solution of a purified protein derivative designed as an aid in diagnosing TB also know as the silent killer.

A tiny amount of the PPD solution will be placed under the skin on your forearm. You will see a small bleb appear. It will reabsorb soon. If a bleb does not form, the test will need to be repeated at a different site.

Please report to the nurse within the 48 to 72 hours to have the screening read. If you fail to report for this reading, the screening will need to be repeated.

If the screening is negative, nothing further will happen. If the screening is positive, the nurse will advise you what further steps need to be taken.

If you develop a local reaction at the site: Use a cold compress for 20 minutes at a time to the area and apply Benadryl cream, Caladryl lotion or Calamine lotion for the relief of the itching and discomfort. DO NOT cover the area with a Band-Aid or dressing.

Screening is voluntary. Please answer the following Questions:

YES/NO
YES/NO
YES/NO
YES/NO
YES/NO
YES/NO
YES/NO

Have you ever had a positive TB test in the past?
Are you allergic to any of the components of the vaccine
Have you had any live immunizations in the past 30 days, e.g. Measles, Mumps, Rubella, Varicella?
Have you had any steroid therapy (Prednisone) orally in the past 60 days?
Have you ever had BCG Vaccine?
Have you been exposed to someone with active TB?

Are you experiencing any of the following symptoms?

YES/NO
YES/NO
YES/NO
YES/NO

Night Sweats?
Productive cough (greater than 3 weeks?)
Unexplained Weight loss?
Shortness of breath or chest pain?
Loss of appetite
Fatigue/weakness
Frequent or recurring chills?
Fever > 100 degrees F.

I have read the above information and had the opportunity to ask questions. I understand the benefit/risks of this screening. I understand that I MUST return within 48 to 72 hours to have this screening read

CONSENT TO BE TREATED:

FROM: Dr. Thomas Ficht

SUBJECT: Routine TB/Brucellosis Testing

The quarterly blood samples will be collected from personnel who are at risk for TB/Brucellosis on Tuesday, February 12, 2002. Please report to Room 108 VMR, for sampling between 10:00 a.m. and 12 p.m. If for some reason you are not able to make this time you will be required to go to the Scott & White clinic to be tested. If there were any personnel left off this memo, please distribute a copy to them.

Whether or not you plan to be tested, please return this form by Friday February 8th, signed and checked in the appropriate space, to Jody Ramirez, Room 310 VMR building. Thanks.

Yes, I will be present for test

No I will not be present for test
