I assume RMDF is for the Aydin materials.

If so, here it is.

Thanks Bill,

I've attached the Research Material Disclosure form.

Is this material something we need to look at regarding the Ceres agreement?

I know things are busy, but we need to get the disclosure forms for the other recent agreements we've done - do you want me to get with Karen on that?

Thanks,  
Robert

Robert:

I propose that we send F2 population seed to Selahattin. An F2 population between two lines is the point in a breeding program in which there is maximum genetic variation and little to no genetic uniformity, ie, every plant is genetically different although all plants in the population are related.

Other than the characteristics of the parents, there is little to disclose because there is not descriptors that can be assigned to anything in specific.

Because these are F2 populations, IF he was to develop anything of commercial value, then he would do the vast majority of the work (all I did was make a cross and grow it for one generation). We would be entitled to 5-10% of the value (maximum), IF something was to develop. As I understand it their

interest is research - you would have to ask if they are interested in commercial development. I would consider it research material.....

Bill,

Received the Material Request Form this evening from Selahattin Aydn.

I need a disclosure form on this.

Would you consider this purely research material? If so, a Research Material Disclosure can be completed instead of a Plant Variety/Germplasm Disclosure. Note that if we go with the Research Material Disclosure and at a later date the material is wanted for commercial purposes, a Plant Variety/Germplasm Disclosure form would need to be completed. For purely research purposes with another institution, the Research form is fine, but if you anticipate future commercial interest (even with the Dr. Aydn), we would need a the PV/Germplasm form. You're call on which to go with for this Material Request if this is purely research material.

Thanks,  
Robert

Dear Mr. Brummett,

I am so sorry for interrupting you, but I am sending this message to request a material that we need in our mapping project.

The form is attached for requesting the material. At the form I put Yuksel Bolek as contact person. He is the supervisor of the project.

If you have any question, please feel free to contact with me, best regards...
