Subject: 2017 Meetings - Potential Presentation
From: Royden Saah <royden.saah@islandconservation.org>

Hello All,

Meeting Attendance involving GBIRD: Last night, I was invited to submit an abstract (due today) for poster and lightning talk at the Australasian Vertebrate Pest Conference (<http://avpc.net.au/>) on May 1st. I will present on the entire program & focus areas. If you would like to join in as an author (especially students), please let me know. The rub is that I will need to get a 300 word abstract delivered in the next few hours.

I understand Karl is going to present a panel at the AVPC and potentially at the Island Invasives Conference (<http://www.islandinvasives2017.com/>). A senior manager from Island Conservation, Brad Keitt is an invited speaker at Island Invasives, but I am unsure of his topic(s) at this point.

Lastly – Focus area leads, please take a look at the spreadsheet, as this will probably be used to keep up with tasks (general and DARPA related). I think the workload will increase very soon, so having everything in place is helpful more than ever!

Cheerio!
Royden

Subject: [gbird] Partnership Improvements and Upcoming Meetings in 2017

Hi All,

Please find an attached spreadsheet I have drafted up to help with focus area leads and organizational leads keep up with the program needs. Please give input as to what you think can make it more beneficial to you and I will update.

Also, please share with me (and I will compile) any meeting attendance and planned that relates to the GBIRD program. Give a brief overview of participation. I know multiple partners may be going to several meetings and this will allow us to work in a coordinated effort when presenting.

With Appreciation,
Royden
