Hello,

You have apparently replied to [mj2-owner@lists.ncsu.edu](mailto:mj2-owner@lists.ncsu.edu), a system acct.

If you are wishing to open a ticket concerning list services, please send your question to [listman@ncsu.edu](mailto:listman@ncsu.edu). This will open a trouble ticket for you and get you in contact with a "live" person and not the automated system response address.

Cheers,

Hi

I have created a listserv for a multi-institutional partnership. It seems all outsiders (outside of NCSU), need to have their posts accepted.

Is there a way I can have the members not need that level of moderation. I read the directions and thought I set it up without required approval, but that seems not to be the case.

Your assistance is appreciated.  
Royden (Joseph Royden Saah - [jrsoah@ncsu.edu](mailto:jrsoah@ncsu.edu))
