Hi GBIRD Partnership =E2=80=93 Please Read,

=C2=B7 DARPA =E2=80=93 Thanks again to John Godwin, who is leading =
a Herculean effort, an Everest Challenge. If successful, DARPA will have i=
ncreased funding by orders of magnitude to this point!! We knew this was g=
oing to be DARPA hard going into the application, but PLEASE, PLEASE, PLEAS=
E be continue to support any request he has regarding these negotiations!

=C2=B7 White House OSTP - Karl, Owain, Dan and I will be presenting=
the GBIRD program to the Pandemic Prediction and Forecasting Science and T=
echnology Working Group at the White House Conference Center on Wednesday. =
There are ~150 governmental representatives on this working group. We can=
expect ~60 for the presentation. Modeling may be a prominent topic of disc=
ussion for this meeting.

=C2=B7 Modeling - Speaking of modeling, Jacob or I will send out a =
doodle poll with those associated with Modeling aspect of GBIRD. The inten=
t is to formalize a process for integrating modeling data into our planning=
and strategy process. Please keep a lookout for this poll.

=C2=B7 Biosafety =E2=80=93 I will be asking those involved with tra=
nsgenic animal work to help put together a white paper on how our partnersh=
ip addresses biosafety. Please be on the lookout for this too!

=C2=B7 DARPA =E2=80=93 I heard from a colleague outside the partner=
ship and outside DARPA that DARPA will be making a press release regarding =
the Safe Genes Program in April. I am not sure if the recipient organizati=
ons or sub-contractors will be identified. John =E2=80=93 if you speak to =
Renee again in the near future, or email her, please bring this up.

=C2=B7 Australia =E2=80=93 I contacted the Australian embassy in th=
e US and am working on a visa to lend support to our colleagues in Oceania =
for basically June and July.

=C2=B7 Army Corps of Engineers =E2=80=93 Several of us met with the=
Army Corps of Engineers just before the DARPA proposers=E2=80=99 day in DC=
. They are convening a meeting in Massachusetts on safety aspects of synth=
etic
