If the fonts were wonky on that one, I know why...we use a purchased font that goes with our style guides...here's one in a common font...

Cheers,

**Heath Packard**

Hey folks!

I'm excited to see that the list serve will allow attachments.

As such, I wanted to share this PPT version of the partnership slide that was used in the presentation some of our colleagues delivered to the White House on Wednesday.

Cheers,

**Heath Packard**

Good Afternoon All (US) and Good Morning (AU & NZ),

Along with supporting meeting notes and activity tracking, Jacob has put together this partnership map with me to help visualize the partnership and reinforce collaboration when possible. I think things are going very well in the strengthening partnership aspect – Joint work between NWRC and UofA for a USDA Biotechnology Risk Assessment Grant (BRAG), joint fundraising efforts between IC and NCSU, GBIRd presentation at AVPM Mtg, and of course DARPA efforts!! If I missed anything, please self-promote partnership strengthening efforts, as this will be key to our success!

Please keep up the great work and have a fun weekend!

With Continued Gratitude,

Royden

PS – if you have questions or comment re: the GBIRd map, please let me know.
