The following request:

"(post to gbird)"

was sent to NC State Email List Services
by Daniel Tompkins <TompkinsD@landcareresearch.co.nz>.

The request requires your confirmation for the following reason(s):

A header line is too long (1806 > 1024)
The message headers are too large (15934 > 2048)

To accept or reject this request, please do one of the following:

1. If you have web browsing capability, visit
<http://lists.ncsu.edu/cgi-bin/mj_confirm/domain=lists.ncsu.edu?t=6F2F-AB3F-BB8C>
and follow the instructions there.
2. Reply to mj2@lists.ncsu.edu
with one of the following two commands in the body of the message:

accept
reject

(The number 6F2F-AB3F-BB8C must be in the Subject header)
3. Reply to mj2@lists.ncsu.edu
with one of the following two commands in the body of the message:

accept 6F2F-AB3F-BB8C
reject 6F2F-AB3F-BB8C
4. If you know the administrative password for the gbird list,
all pending requests can be managed by visiting
<http://lists.ncsu.edu/cgi-bin/mj_wwwadm/domain=lists.ncsu.edu/gbird?func=showtokens>

If you do not respond within 7 days, this token will expire,
and the request will not be completed.

To: Heath Packard <heath.packard@islandconservation.org>, "gbird@lists.ncsu.edu" <gbird@lists.ncsu.edu>

Nice one.

From a PF2050 perspective, I'd be grateful if the line is that genetic biocontrol approaches are being explored along with the range of other potential approaches – the aim is to provide the NZ public and policy makers with the information that they need to decide what approaches (with genetic biocontrol being one possible) they want to take to achieve the goals.

Thanks, Dan.

Subject: [gbird] NZ Radio Interview

Hi all,

I have a live interview with NZ Radio this afternoon on 2050 Predator Free NZ and the GBIRD investigation. I wanted to be sure to follow our media communications protocols and let you all know. I'll be sure to connect you if/when they want to go deeper than a general overview of our investigation.

Best,

Heath Packard
