

Subject: 83E4-C5E2-C00C : CONSULT from gbird (post)

From: gbird-owner@lists.ncsu.edu

Date: 5/9/2017 6:14 PM

To: gbird-owner@lists.ncsu.edu

The following request:

"(post to gbird)"

was sent to NC State Email List Services
by Heath Packard <heath.packard@islandconservation.org>.

The request requires your confirmation for the following reason(s):

The message headers are too large (7567 > 2048)

To accept or reject this request, please do one of the following:

1. If you have web browsing capability, visit
<http://lists.ncsu.edu/cgi-bin/mj_confirm/domain=lists.ncsu.edu?t=83E4-C5E2-C00C>
and follow the instructions there.
2. Reply to mj2@lists.ncsu.edu
with one of the following two commands in the body of the message:

accept
reject

(The number 83E4-C5E2-C00C must be in the Subject header)
3. Reply to mj2@lists.ncsu.edu
with one of the following two commands in the body of the message:

accept 83E4-C5E2-C00C
reject 83E4-C5E2-C00C
4. If you know the administrative password for the gbird list,
all pending requests can be managed by visiting
<http://lists.ncsu.edu/cgi-bin/mj_wwwadm/domain=lists.ncsu.edu/gbird?func=showtokens>

If you do not respond within 7 days, this token will expire,
and the request will not be completed.

<gbird@lists.ncsu.edu>

Great, thanks Dan!

I'm connecting with the NZ DOC program and communications leads on the PF2050 very soon so we can better coordinate on our messaging.

Best,

Heath Packard

Nice one.

From a PF2050 perspective, I'd be grateful if the line is that genetic biocontrol approaches are being explored along with the range of other potential approaches – the aim is to provide the NZ public and policy makers with the information that they need to decide what approaches (with genetic biocontrol being one possible) they want to take to achieve the goals.

Thanks, Dan.

Subject: [gbird] NZ Radio Interview

Hi all,

I have a live interview with NZ Radio this afternoon on 2050 Predator Free NZ and the GBIRd investigation. I wanted to be sure to follow our media communications protocols and let you all know. I'll be sure to connect you if/when they want to go deeper than a general overview of our investigation.

Best,

Heath Packard
