The following request:

  "(post to gbird)"

was sent to NC State Email List Services
by "Eisemann, John D - APHIS" <John.D.Eisemann@aphis.usda.gov>.

The request requires your confirmation for the following reason(s):

  A header line is too long (1846 > 1024)
  The message headers are too large (16446 > 2048)

To accept or reject this request, please do one of the following:

1. If you have web browsing capability, visit
   <http://lists.ncsu.edu/cgi-bin/mj_confirm/domain=lists.ncsu.edu?t=29DC-A4F9-BAAA>
   and follow the instructions there.

2. Reply to mj2@lists.ncsu.edu
   with one of the following two commands in the body of the message:

    accept
    reject

   (The number 29DC-A4F9-BAAA must be in the Subject header)

3. Reply to mj2@lists.ncsu.edu
   with one of the following two commands in the body of the message:

    accept 29DC-A4F9-BAAA
    reject 29DC-A4F9-BAAA

4. If you know the administrative password for the gbird list,
   all pending requests can be managed by visiting
   <http://lists.ncsu.edu/cgi-bin/mj_wwwadm/domain=lists.ncsu.edu/gbird?func=showtokens>

If you do not respond within 7 days, this token will expire,
and the request will not be completed.

Subject: FW: ISBGMO conference & CRISPRcon: Science, Society and the future of Gene Editing

Greetings GBIRd Steering Committee et al,

Our partners in the gene drive research coalition (e.g. Target Malaria) are curious if these events (below) are on our
radar and if GBIRd partners will be on hand. gene drive research partnership?

Could you let Royden, Todd, and I know if you plan to be on hand for either of these events so we can coordinate our
participation?

Thank you!

Best,

Heath Packard

Subject: ISBGMO conference & CRISPRcon: Science, Society and the future of Gene Editing

Dear all

Two events have come up on our radar for which we were wondering if any of you will be in attendance:

- **ISBGMO 14** (International Symposium on the Biosafety of Genetically Modified Organisms) – taking place in Guadalajara, Mexico, June 4-8. Target Malaria had initially hoped to have someone attending but it looks like it will not happen. This is an important meeting that brings together regulators from a wide group of countries, offering a good opportunity to make contacts with people that are likely to be involved in CBD and other fora.   There is a session on gene drive on Thursday 8th, but the theme could emerge in other sessions, in particular around environmental risk assessment questions. I believe Hector will attend the gene drive session, but is anyone else planning to attend the rest of the meeting? If so, it would be great to get a read out of the discussions afterwards and any insights in terms of positions that could affect CBD negotiations.

- **CRISPRcon: Science, Society and the future of Gene Editing** – Berkeley, California, Aug 16-17. This conference is being organised by Keystone, looking broadly at gene editing. We were wondering if anyone had heard of it and was planning to attend or was speaking on any of the sessions. It is meant to cover these topics: societal perceptions and communications of science; social dimensions of CRISPR in medicine, food and conservation; the role of regulation and social acceptance in determining the future of CRISPR. The draft schedule indicates a session on gene drive and a session on CRISPR and conservation, with most of the sessions focused on the social acceptance/ethics elements. If anyone knows more and can share, that would be great.

Best,

Isabelle
